

TRANSITION PLYMOUTH presents:

FOOD SECURITY

**how sustainable are
our food choices?**

A PUBLIC DISCUSSION

In these times of climate crisis, our natural resources and our lifestyles should be better appreciated and checked, as a vital part of our survival. How is our food produced? How much land, water, clean air are we using for it? Are we wasting food? Is what we eat linked to social justice or injustice? Are the market proposals healthy? What is GM food? Do we need abundance or efficiency, and how do we get there? Come and share together ideas, proposals, questions about this important topic.

THURSDAY 19th SEPTEMBER
